

European Health Technology Assessment

Joint Clinical Assessments (JCAs) Will Be Conducted from 2025 onwards

Implementation

Based on procedures and outputs of EUnetHTA joint actions.

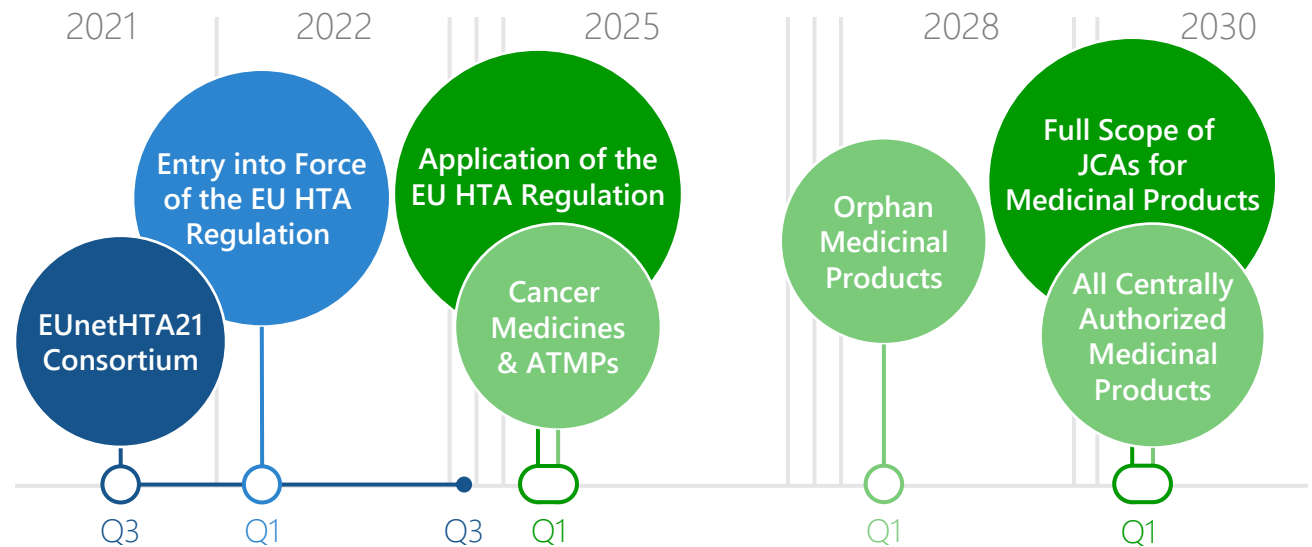

Methods

Development of methodological guidance

Standards

Establishment of uniform standards for clinical assessment

Execution

Different medicinal products will be evaluated at various points in time until eventually all centrally authorized medicinal products will need to be evaluated via JCAs in 2030.

Cave

The commission may by means of implementing acts adopt JCAs for **selected drugs** at an **earlier time**.
